**LINES OPEN 9am - 5pm Monday - Friday**

**FORWARD LEEDS** helps people choose not to misuse alcohol and drugs, and reduce risk taking behaviour through dedicated prevention and early intervention support.

We also support more people to help them achieve recovery from alcohol and drug misuse through a range of treatment and support interventions.

**FORWARD LEEDS** supports sustained recovery and enable individuals to make positive progress with their lives, delivered primarily through the Building Recovery in Communities (BRiC) programme.

The specialised Young People's service provides age/maturity specific interventions that are responsive to the needs of young people whilst ensuring the welfare of the young person remains paramount.
