LINES OPEN 9am - 5pm Monday - Friday

**Forward Leeds** is a confidential service that supports young people to learn more about the effects and risks of drugs and alcohol. We aim to support young people to be safe and reduce or stop using these substances.

If drugs and/or alcohol are linked to an A&E presentation we would like to refer that young person to **Forward Leeds**.

Whenever a young person attends A&E we would like to ensure they receive the best care and support.

**Forward Leeds** will contact you to arrange an appointment which can be at home or a community venue at a convenient time.

The support offered can be anything from a one-off session to weekly sessions depending on what the young person wants.

We can support young people to make positive changes.
